## Letter of thanks

Dear Daniel,

We would like to express our appreciation for your excellent work during SAMSUNG Forum 2012 in Prague including the preparation for the event - lasting for several months. Especially, we have to highlight and thank you for your never ending support as well as your never ending endurance.

The Forum 2012 has been a successful project for every participant. Our client has been very satisfied with the execution of the preparation for the event and the handling during the event in Prague Congress Center.

We are eminently delighted with our cooperation and your immediate execution of inquiries on-site.

Hopefully, we will have a further opportunity to work with you again in the near future.

Please kindly pass our appreciation on to your colleagues Jakub, David, Maria and to your partners Milan Svoboda and Pavel Beck.

Thank you for everything.
